**SUPER ABSORBENT & QUICK DRYING:** The compact microfiber towel is made of 100% Micro-Fiber which adopted the orange petal technique and the microfiber divides the filament into eight pieces. It can absorb water several times to its own weight which is more than 30% of cotton fabric. Quick-drying fabric has an excellent performance in water absorption and diffusion, which can shorten the drying time of water.

**PLEASANT, SUPER-SOFT TEXTURE & ANTIBACTERIAL:** Our Relefree microfiber towel used the finest microfiber, thinner than SILK, these fibers went through an advanced softening process, thin and compact, but soft. The microfiber fabric is antibacterial, helping to inhibit odor and germs, so you don't have to worry about mold, mildew, or that horrible gym-towel stink.

**MULTI USE:** The large microfiber towel can be used to travel, Camping, Sports, Showers at campgrounds, the beach, the pool, swimming, backpacking, gym and etc. Then the small towel as a gift is great for biking, yoga and shorter trips too. Please wash your towel before first use. If you are not completely happy with your purchase for whatever reason, let us know and we'll do our best to make it right for you. It is also a wonderful yet practical gift idea for your active friends and family!

Best for Hiking, Climbing, Camping
