

Great for tough surface cleaning jobs

This terry cleaning cloth is actually a small towel at 30X30cm. It feels and looks a very soft terry-cloth with a longer nap to deep clean in places like keyboards, equipment air vent areas, office areas or ground at home.

This cloth can be used dry or dampened with water or a safe screen solution.

Microfiber cloth is environmentally friendly, because you can wash and reuse them over and over. You can also save money spent on disposable paper towels and cleaners.
